

Your One-Stop Shop for East-West Biotech Collaborations

Q4 2026

Travel Together, Go The Distance

We are the “Only-In-Class” East-West Biotech Collaboration Advisors

- East-West pharmaceutical licensing transactions and R&D collaborations are exploding!
- The vast Asian biotech membership from [iSWT Community](#) provides a large, high-quality East-West biotech space.
- [ISWT BioAdvisory](#), [Mianus Accelerator](#), and [IntelliPro](#) together create a **One-Stop Shop** to Asian biotech innovations.
- Our team has impressive track records in the East-West **BD&L** and **R&D collaboration**.

ISWTB team members have impressive deal-making records

Alphamab Oncology out-licensed a Phase 3 ADC to Pathos for a **\$2.2b** deal with **\$120 million** upfront payment
[2026](#)

Boulevard Bio in-licensed a preclinical T-cell engager for up to **\$1.6 billion**
[2026](#)

VelaVigo out-licensed preclinical ADC to **Avenzo Tx** in a \$750-M deal with **\$50M** upfront
[2024](#)

J&J paid **\$245 million** upfront for two CAR-Ts from **CBMG**
[2023](#)

J&J paid **\$350 million** upfront for BCMA-CAR-T from **Legend Biotech**
[2017](#)

Henlius out-licensed two biosimilars to **Organon** for \$73 million upfront
[2022](#)

Atomwise signed \$1.2 billion AI drug discovery deal with **Sanofi**
[2022](#)

J&J formed an ADC R&D partnership with **Hanzhou DAC Group**
[2022](#)

Henlius in-licensed a first-in-class IO asset from **Palleon Pharma**
[2022](#)

Henlius in-licensed a Phase 1 BRAFi from **NeuPharma**
[2021](#)

- ISWTB team members have contributed to **16** publicly disclosed deals.
- All the deals amount to **\$ 1.1 billion+ upfront payments** and **\$10 billion + total deal value.**

Our founder Dr. Leon Tang is an established BD and R&D expert

Education & Work Experiences

A high-quality global network

Expert in BD, Community building, and R&D

1. **An accomplished BD executive** in biotech who has contributed to or closed deals with total value of ~\$5.0 billion.
2. **A super-connector** with 10,000+ LinkedIn followers who come from all sectors of the healthcare industry primarily in the North America, APAC, and Europe.
3. **An accomplished scientist with 50 publications**, including 6 senior-author Nature Reviews Drug Discovery, 1 Lancet Oncology, 1 Nature BME, 1 Science Translational Medicine, 3 Nature Communications (1 first-author), 1 first-author Science Advances, 3 PNAS (2 first-author), etc. with H-index of 35 and 6.1K citations.

8,000+ LinkedIn connections (as of Q2 2026)

- Decision maker (VP+ in MNC, C-suite in biotech, and equivalents)
- Mid-level (AD-ED of MNC and biotech, and equivalents)
- Entry-level (Up to senior scientist or senior associate)
- Others (Academia, media, NGOs, etc.)

Agenda

- **The current “China for Global” boom is driven by China’s fast & cost-effective R&D**
- **Pharmaceutical licensing and R&D collaboration are two common strategies to utilize the rise of China biotech**
- **We have unparalleled access to China biotechs and global biopharmas via our vast network**

China biotech could move 3 times faster in fast-follow preclinical R&D

Discovery: 50-70% acceleration from target to IND for fast-following small molecules
Average time from target nomination to PCC and IND submission, months

Key drivers

- 1 Streamlined discovery workflows
- 2 Closer CRO integration
- 3 Hyper-focus on delivery

China runs clinical trials faster and cheaper than others

Western companies are sourcing early-stage innovations from China

48 Deals Brought in \$8.4 Billion Upfront in 2024

[Tang et al, Nature Reviews Drug Discovery, April 2025.](#)

Only **M&A and licensing deals** with disclosed upfront payment were included. Pre-money equity of newco deals and near-term milestone, if disclosed, were included in the upfront payment calculation, while and long-term milestone payments were excluded.

China is the largest source of licensing deals

Source: [PharmCube](#), Published on 2026-01-21

In 2025, China-originated licensing deals contributed to **49%** of the value of all global BD&L deals, followed by 27% from the US, 16% from the EU, and 7% from all other countries.

Agenda

- The current “China for Global” boom is driven by China’s fast & cost-effective R&D
- **Pharmaceutical licensing and R&D collaboration are two common strategies to utilize the rise of China biotech**
- We have unparalleled access to China biotechs and global biopharmas via our vast network

A Substack Newsletter has
~5,500 subscribers

iSWT Community

iSWT Community publishes "Asian Biotechies In A Bar" newsletter and "BioVerse" webinar/podcast. Both publications focus on the latest news and major trends in the biotech industry, from the lens of East-West biotech collaborations.

BioVerse webinar has 13,000+
live attendees per episode

BioVerse webinar is co-produced by iSWT Community, SAPA-GP, and BioSpark Group, three US-based nonprofits.

Our webinars attract on average 13,000+ live attendees per episode, and about 50% of our attendees hold mid to senior positions in their companies.

United States and China account for 80% of our audience, while the remaining audience come from all major biotech hubs around the world.

Visit iSWT Community website

5,000+ active members from
12 groups & a LinkedIn page

BusinessOne, BusinessTwo, and China Biotech Visits focus on investment, BD, CDMO, law in the East-West collaboration space.

R&D (full) focuses on R&D and VC in biotech – 500 members

Europe Chapter on WhatsApp community

We help Western biotechs generate first-in-human or proof-of-concept clinical data at China Speed but with Western trust and quality

+

Opportunities

- **Abundant clinical resources:**
Large patient pools, world-class hospitals, and experienced bilingual PIs
- **Lower cost, faster execution:**
Often “half the cost and twice the speed”
- **Regulatory flexibility:**
Quasi-dual-track pathways enabling early proof-of-concept studies
- **Proven local advantage:**
China biotechs often achieve faster, more cost-effective early-stage development than U.S./EU peers

Challenges

- **Local competition & regulatory risk:**
Securing priority access to clinical resource while mitigating “foreigner” risk
- **Inconsistent quality:**
Variable process and quality standards across sites and PIs
- **IP & data protection:**
Potential exposure of proprietary technologies and sensitive data
- **Cross-border Collaboration:**
Coordination across regulatory, operational, and cultural boundaries between China-based teams and Western sponsors

More about [Mianus Accelerator](#)

Our partners and collaborators together provide the best access to innovations and R&D capabilities in Asian biotech space

Travel Together, Go The Distance

<https://www.iswtb.com>

We have advised 37 clients in the global biotech industry

Who are our clients?

- 27 biotech companies, 6 investment firms, 1 CRO, and 1 Fortune 500 company.
- 24 companies from North America, 12 from Greater China, and 1 from Europe.
- Our key capabilities:
 - East-West asset licensing, newco formation, and R&D collaborations.
 - First-in-human trials in China and other emerging territories.

Representative projects

Assisted the out-licensing deal with Avenzo worth \$750 million, and the subsequent Pre-A financing of \$50 million in 2024

In-licensed a Chinese asset from METiS Techbio for \$20M upfront in a deal worth up to 1.6 billion. DeerField invested \$5 million in METiS' IPO as well.

Made critical contribution to the company's \$2.2 billion out-licensing deal of their phase 3 TROP2 x HER3 ADC to Pathos AI in 2026

Multiple US biotech companies

Advised the companies to initiate investigator-initiated trial (IIT) or First-in-human trials with their first-in-class assets
