

Your One-stop Solution to Innovations and R&D Capability in Asian Biotech

Q1 2026

Travel Together, Go The Distance

Our unique value propositions set us apart from other players in the East-West licensing and R&D collaboration space

- East-West cross-border pharmaceutical licensing transactions and R&D collaborations are booming!
- The vast Asian biotech membership from [InScienceWeTrust Community](#) provides a large, high-quality biotech network.
- [ISWT-B](#) / [Merit CRO](#) / [Mianus Capital](#) / [IntelliPro](#) / a FO-backed VC fund partnership and our collaborators together provide unparalleled access to Asian biotech/biopharma companies.
- Our team have extensive experiences in East-West licensing (BD and M&A) and R&D collaboration.

Education & Work Experiences

A high-quality global network

7,200+ LinkedIn connections (as of Q1 2026)

- Decision maker
(VP+ in MNC, C-suite in biotech, and equivalents)
- Mid-level
(AD-ED of MNC and biotech, and equivalents)
- Entry-level
(Up to senior scientist or senior associate)
- Others
(Academia, media, NGOs, etc.)

Expert in BD, Community building, and R&D

1. **An accomplished BD executive** in biotech who has contributed to or closed deals with total value of **\$3.0+ billion**.
2. **A super-connector** with **9,000+ LinkedIn followers** who come from all sectors of the healthcare industry primarily in the North America, APAC, and Europe.
3. **An accomplished scientist with 50 publications**, including 6 senior-author Nature Reviews Drug Discovery, 1 Lancet Oncology, 1 Nature BME, 1 Science Translational Medicine, 3 Nature Communications (1 first-author), 1 first-author Science Advances, 3 PNAS (2 first-author), etc. with H-index of 35 and 6.1K citations.

Agenda

- The current “China for Global” boom is driven by China’s fast & cost-effective R&D
- Pharmaceutical licensing and R&D collaboration are two common strategies to utilize the rise of China biotech
- ISWTB has unparalleled access to China biotechs and global biopharmas via our vast network

China biotech could move 3 times faster in fast-follow preclinical R&D

Discovery: 50-70% acceleration from target to IND for fast-following small molecules
Average time from target nomination to PCC and IND submission, months

Key drivers

- 1 Streamlined discovery workflows
- 2 Closer CRO integration
- 3 Hyper-focus on delivery

China runs clinical trials faster and cheaper than others

Chart 15 - China population allows 2-5x faster patient enrollment

Genmab Targets New Cancer Therapies With \$1.8 Billion ProfoundBio Deal

- Danish firm targets ProfoundBio for next-generation antibodies
- Both companies' boards back the all-cash transaction

By Christian Wienberg

Updated on April 3, 2024 at 4:34 AM EDT

Save Listen 2:10

Danish drugmaker Genmab A/S agreed to buy closely held US biotech firm ProfoundBio Inc. for \$1.8 billion in cash, the latest in a flurry of deals to gain next-generation cancer antibodies.

The takeover will give Genmab experimental antibody drug conjugates, including one that's in mid-stage clinical tests for ovarian cancer, the company said Wednesday. Both boards backed the transaction.

We have advised 30+ clients in the global biotech industry

Who are our clients?

- 24 biotech companies, 5 investment firms, 1 CRO, and 1 Fortune 500 company.
- 18 companies from North America, 12 from Greater China, and 1 from Europe.
- In/Out-licensing of assets, R&D collaboration, due diligence support, and various consulting consist of most projects we have taken.

Representative projects

Assisted the out-licensing deal with Avenzo worth \$750 million, and the subsequent Pre-A financing of \$50 million in 2024

A public US biotech company

Advised the company to initiate investigator-initiated trial (IIT) with their first-in-class allogeneic cell therapy in China

A private Canadian biotech company

Advising the company to leverage China R&D efficiency via asset licensing and R&D collaboration in chronic disease space

A leading healthcare specialist fund

Leading the BD&L of Chinese asset for a newco backed by a leading healthcare specialist fund with \$15+ billion AUM.
